CONCEPT OF BUSINESS TOURS TO UAE

No more general statements, such as "we can assist you with your business travel, arrange a business meeting or attendance of exhibition". We are business consulting professionals. Now you no longer need to break your head over what questions you need to ask about business in UAE, what you need to read or study. You can simply choose from one of our suggested itineraries.

The idea of business tours to UAE was not born unexpectedly. Initially we were focusing on business consulting in the UAE and advised on business opportunities in Dubai and other emirates. Businessmen and entrepreneurs have been approaching us asking for assistance with business setup in Dubai, Ras Al Khaimah, Fujairah and other emirates. We continued to address such requests, provided PRO services and helped to find business solutions.

Even now we continue to provide business consulting services and advise successful entrepreneurs, who value professional approach and efficiency. But we took this a step further. We noticed that many businessmen who contacted us had no knowledge of business processes in the UAE. Others did not understand all benefits of doing business in a foreign country. While there were also those entrepreneurs, who were worried if their families would adapt to new cultural conditions of the Middle East.

This is when we saw several issues arising. How can an entrepreneur decide if he needs to do business in the UAE? Shall one book a consultation with local professionals? Can you really understand in a matter of 2 hours how is business conducted in the UAE and what opportunities are there? And how should one know which questions to ask? Very often to obtain general information it is enough to study materials available on the internet. To get a broader understanding, consultation is never sufficient.

We managed to resolve all mentioned issues. We came up with an idea of business tours to UAE.

WHY BUSINESS TOURS ARE UNIQUE

Imagine for a second that you have a very close friend in the UAE or even a member of your family living there and you inform this person that you are visiting UAE soon, asking to show the country. Now add to hospitality of a close friend or a relative profound knowledge of all aspects of doing business in the UAE, a broad network of business contacts from different industries and an understanding of business processes in the country. This is how we imagined business tours.

Each client is a long awaited guest, who we take a great care of. You will be met right at the airport and accompanied by car to your hotel. You will never eat alone and you will always have a company of our professional who will share experience and knowledge on doing business in the UAE. No tourist groups, no crowds and no hassle. Personal business consultant and a driver will accompany you on a tour to various free zones, development projects, arrange visits to various local authorities to learn more about specifics of living and doing business in UAE. The goal of each tour is to allow to experience UAE business by touch. We managed to accomplish this task and met the goal.

WE DO NOT STOP SURPRISING YOU

We always reiterate that we take great care of our clients. To prove this, along with each chosen itinerary our clients receive following complimentary services:

Transfer from/to the airport
Breakfasts, lunches and dinners
Accompaniment by car throughout the day

If you did not have time to contact a travel agency to get your visa to UAE done or to book your hotel room, we can assist you as needed through our broad network of partners. We will recommend a place to stay at, from where you will be able to enjoy city and sea views and have a rest on the beach after your business tour.

What to expect from business tours to UAE

We offer

our guests 1, 3 and 7-days business itineraries. Each day is planned from 9 a.m. till 6 p.m. Since you are our guest, you are free to choose which days you would like to take. The number of taken days determines the longevity of your business tour.

As we said before, our clients are long-awaited guests and you cannot have many long-awaited guests in your life. This is exactly why business tours are made for 1, 2 and 3-4 guests. Just think about it. You can come to UAE and spend a weekend without missing important business meetings back at home. You will not waste any time but rather receive valuable experience and knowledge. And we will not let you go without lots of useful notes and materials.

We took it even further. We offered businessmen who already planned a family visit to the UAE to add a day or two of a business tour to the program to learn about business in the UAE. The expression 'mix business with pleasure' cannot describe it better.

Business Day in UAE

You already planned your family vacation in the UAE. Everything is set: flights are booked, hotel room is reserved, visas are issued. Then why not to add a business note to this trip and and add a one-day business tour? If you decide to use this opportunity, you will enjoy a complimentary meet-and-greet service and on the day of the tour we will ensure that you have a comfortable trip.

Business Weekend in UAE

How often the weekend is spent monotonously and in the same way? We value your time and this is why we offered a business weekend tour to our guests. You will arrive to UAE on Friday evening and your departure will be on Sunday evening or Monday morning, so you will not miss any important meetings and conference calls. If needed, we can assist you with visa and hotel room reservation through our broad network of partners. You will also receive meet-and-greet service at the airport and you will be accompanied by car. We can guarantee you will enjoy suggested itinerary.

Business Intensive Tour in UAE

For those, whose visit to the UAE is the first one, we thought it would be inappropriate to have solely business itinerary without any acquaintance with Middle Eastern culture and traditions. You can gain the full impression only when you combine both aspects and along with business processes, you learn about cultural aspects of the country. We designed a 7-day program which will allow, on the one hand, to learn about business opportunities in the country and, on the other hand, see the main city sights and shop, if you wish.

ONE DAY FROM A BUSINESS TOUR

Now imagine that you arrived at the UAE airport. You have been picked up from the airport, transferred to your hotel, received assistance with check-in and enjoyed a delicious dinner. After such amazing start, expectations of our guests are set high and we do not disappoint them. Our goal is to exceed expectations, no matter what.

Next day after a nice breakfast at our favorite location your personal business consulting professional takes care of you and you start exploring the city. You will step into various government institutions, learn about various aspects of doing business in the UAE, meet new people, obtain detailed information on how to set up a local, free zone and offshore companies, learn about requirements for conducting business in the UAE. And this is only a small part of what is awaiting you.

After this we invite you to have lunch at another favorite spot, where you will be able to enjoy Arabic cuisine and have a heart-to-heart talk with our business consulting professional. We understand that our clients are humans first of all and your comfort, and piece of mind in particularly, we put above all.

Further to a lunch break we are set to visit the fastest growing free trade zone in the UAE. We will visit administrative building of the free zone, have a look at how free zone functions, learn about business center in the free zone and services it offers, have a quick look at commercial properties available for rent and purchase.

The day will culminate with dinner at one of UAE restaurants. Only after that you are ready to return to your hotel, relax and get ready for the next business tour day.

Sounds exciting, isn't it?

Let our professional business consultants share with you their knowledge and experience on conducting business in the United Arab Emirates.
Let us surprise you and give you only the most positive emotions from your business trip to the UAE.

UAE BUSINESS TOUR ITINERARIES

ITINERARY OF “BUSINESS DAY IN UAE”

1 DAY
